

# Arts Education Data Dashboard

*Mapping creativity in New Jersey schools*

## Dashboard Overview & Checklist

The following outlines both the flow of the data input process and the data you will need to enter. We recommend that you use this tool to gather data before you begin the inputting process. Please note: All data for the 2015-16 school year should be submitted by Monday, Sept. 26, 2016.

### MY TEACHING ARTISTS

Complete for each teaching artist and coach with which you worked in the 2015-16 school year to present programs funded by Dodge. In the Dashboard, you will be able to indicate if the demographic data has been provided by the teaching artist.

## MY SCHOOLS

Enter schools where your programs are offered and complete data linking your programs and teaching artists to each site, providing additional details, including funders, the time frame and who is being served. We are currently only asking for data for programming completed during the 2015-16 school year (July 1, 2015-June 30, 2016), including programming from the summer of 2015. The following data will be needed:

- School Year: 2015-16
- Program offered at School (Select from a pre-populated list created from the data you previously entered on the Program page.)
- Other funding your receive to support this program at this school
- Grades, number, and gender of students served
- Number of classroom teachers served
- School name and district
- Teaching artists (Select the specific teaching artists working in each school from a pre-populated list created from the data you previously entered on the Teaching Artist page.)
- Program Time frame (select: after school, school day, summer)
- Program length: Minutes and sessions
- Program frequency (Select from a pre-populated list, e.g. annual, weekly, monthly)
- Educator Details:
  - Names of teachers and administrators with whom you work
  - Educator disciplines and grades/subjects taught
